Citizens of Campbell's 4th Ward:

As I take office for my second term, I would like to thank you all for your input, opinions and advice. I will continue to do my best to address all of your concerns and keep our city moving forward into the future.

Needless to say, the pandemic has affected us all. Our city is no exception. Many of our plans were put on hold. Many things were outright cancelled. We may have been slowed, but we will not be stopped. Our blight clean-up continues. Mother Nature took another shot at the park. And because of the delays to our paving projects, our roads are still in terrible condition. Not doubt there is still much to be done.

Two years ago I wanted to clean the brownfields, reclaim our section of the river for recreational purposes and attract new business to the city. This is still 100% my goal. I am so grateful and privileged to serve as your Councilman and I promise to keep working to MOVE CAMPBELL FORWARD!!

I thank you kindly!

Robert J. Stanko
