

AN OPEN LETTER FROM CAMPBELL FROM MAYOR NICK PHILLIPS TO CAMPBELL RESIDENTS

Dear Campbell, It is my honor and privilege to serve as your Mayor! I could not do what I do without all of you. Your love and generosity towards this City and towards each other blesses my heart every day, and is a constant reminder of the resilience and dedication of Campbell, Ohio.

I believe a leader is made great by those who are served, and I can honestly say that my residents are the most dedicated, loving, neighborly, and joy filled people that I have ever met. It is always a pleasure to interact with each of you at the various Church, School and Community Events in our City. You humbly remind me why I love to show up for work day after day, and your positivity and prayers always strengthen my resolve to press forward in the face of any challenge. **Thank you for all you do to help me steer this City in the right direction!! Forward!!**

I believe a leader is made great by those they work with, especially in government, where all departments have very specific roles, balancing power in such a way that all must work together in order for the City to progress. I work harmoniously with Council Majority, the Court, City Departments, School Officials and all the various Churches and Organizations throughout our City to get the job done. None of my projects could come to fruition without Council Majority responding to my petitions for funds to make it happen, which is testament to the healthy relationship we, as your government officials, enjoy. Because of these healthy and positive relationships, and a willingness for parties to come together with the same vision, I am proud to report that I have been able to keep my past promises, and continue to envision and work toward the bright future that Campbell was always destined to have. Believe me, **Campbell is poised for greatness!!**

I believe Campbell is transforming! From the brand new entry signs, the yearly paving projects and maintenance of streets, to the care and attention to vacant lots, to the beautification of Roosevelt Park through my Healthy Forest Project, and the hundreds of blighted buildings and properties that have been torn down and revitalized; our city employees, County Engineers, and contracted businesses work together, making Campbell a more beautiful and safer place to live, work and play! I see your pride in this transformation daily as Campbell Residents do their part in taking care of their own lawns and residences which only multiplies the beauty! I am so proud of the neighbors who take a little extra time, and without being asked or compensated, help a neighbor in need; whether it is cutting the grass of an elderly shut in, or shoveling the drive of a family whose parent is in the hospital. Campbell's generosity of spirit is alive and well! Businesses in our town have taken up this mantle of excellence as well! Many of them having replaced and refreshed their parking lots, facades, and some even remodeling and rebuilding inside and out, understand that Campbell requires and expects high standards in order to flourish. **This is Just the Beginning!! Get Excited Campbell!! So Much More Is Coming!! CAN YOU SEE IT??? I CAN!!!**

I believe that working together we accomplish more! Besides sitting on multiple boards as your representative, I have joined forces with other Mayors whose communities sit on the Mahoning River, and we have created the Mahoning River Corridor Mayor's Association. We have already begun the Phase I Dam Project by meeting with Ohio Governor Mike DeWine, and working with the Army Corp of Engineers developing plans to destroy the man made and beaver-built dams in the Mahoning River so that it can flow freely once again. A free-flowing river allows nature to quickly restore itself to a healthy state, and I have begun to meet with small businesses and investors to place recreational areas and a Boardwalk along this river's edge. Having the train tracks along this property makes it that much more enticing, and allows Campbell to capitalize on the diversity and hospitality that have always been the backbone of our Community! **Envision it Campbell! Boardwalk Style Development along a Beautifully Flowing River Safe for All to Enjoy!!**

I believe that without vision, we will perish; without vision, we have nothing to work toward. I see a bright, shining, blessed City filled with love and prosperity! Can YOU see it? As your Mayor, I am diligently praying and working to bring forth that prize that awaits us, **BUT I NEED YOUR HELP!!** If you are willing to join forces with me and work towards the abundant future that Campbell longs for and deserves then **I humbly ask that you [join Team Phillips and RE-ELECT NICK PHILLIPS Campbell Mayor on November 5th](#), so I can continue to steer Campbell into a bright and successful future!**

MAYOR NICHOLAS F. PHILLIPS
