

Citizens of Campbell's 4th Ward,

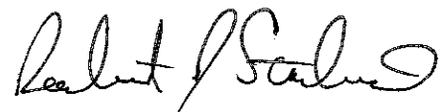

My name is Robert J. Stanko, although most people call me Bob or Bobby. This December, I will have the privilege to serve as your councilman. As this is my first term and some of you may not know me personally, I'd like to take a moment to introduce myself and give you some information about the person representing you. I reside at 380 Coitsville Road with my wife, Melissa and our family Sophia (21), Jacob (18) and Noah (15). My oldest daughter Emily (25) and grandson Eddison (3) live in Struthers. His birth was one of many factors which motivated me to seek this office.

Although I was born and raised in Campbell, in 1980 my mother remarried and we moved to Struthers. I graduated from Struthers High School in 1989. Melissa is a 1990 Campbell graduate. We moved back into the city just before we married in 1997. Even though I'm not a life-long resident or Memorial graduate, I have always considered myself a Campbell kid!

I've worked in building construction and maintenance for 26 years. For the past 12 years, I have been employed at Petro #320 on Salt Springs Road in Girard. It was through my employer's tuition reimbursement program that I was able to attain 3 professional certifications: Residential Electrician (2010), Plumber (2012) and HVAC Technician (2013). Throughout my tenure at Petro, I have coordinated and supervised large-scale construction projects, Paving and concrete work, large line water breaks and a host of other remodeling and renovation projects. Not every project goes exactly as planned. Aged systems can cause unforeseen expenses and additional work. But I have become an expert at keeping contractors on schedule and within budget. I will use this gift for our city.

I cannot (and would not) make promises for things I cannot deliver. But I CAN promise to work tirelessly for the continued improvement of Campbell. Our current administration has brought wonderful improvements to the city. Our roads are systematically being paved. Our park has playground equipment, tennis and basketball courts again, and of course, the return of the festival. I cannot wait to see what's in store for next year!

As we start this new year, we have so much to look forward to. We are entering this next chapter with our books in order, financial stability from the sale of the water plant and a clear vision for our future. And I'm very excited to be a part of it! I do so appreciate the support and encouragement I have received. Again, I look forward to working for the citizens of Campbell and the city, itself. I'm proud to call Campbell my home!

Robert J. Stanko
