

To our Campbell Community:

I appreciate the opportunity to introduce myself to those who may not be familiar with me. I take great pride in being a resident of Campbell for over 43 years. I am happily married to Gene Donofrio, Jr., and the mother of three wonderful children: Vincent (Stacy Sirilla), Gina (Jeremy Bigley) and Danielle (Eric Carano). Additionally, I am blessed to be a grandmother to five truly amazing children, Cameron, Elise, Olivia, Ethan, and Connor. I am an active member of the Gridiron Club, a parishioner of Christ Our Savior Parish and have dedicated over 6 years of service on the MCCTC school board.

My educational background includes degrees from both Youngstown State University and Wheeling Jesuit College, with qualifications in Medical Assisting and Healthcare Administration. Since 2005, I have been employed by Cardinal Health/Edgepark Medical Supplies where I have held various management roles. Presently, I serve as a Consultant to Customer Service Operations and Medical Documentation. Prior to this, I worked as a Medical Assistant for the medical offices of Dr Richard Osman and Drs. Vivian and Philip Starr, proudly serving our Campbell community.

I have had the privilege of serving on the Campbell Board of Education since 2001. During this tenure, we have accomplished numerous significant milestones that have benefitted both our students and the broader community. These achievements include the construction of new school buildings, the revitalization of our football stadium, the establishment of a STEM school (IMPACT Academy) under the Campbell educational system, fieldhouse renovations and the creation of the CLWCC building.

Throughout my tenure on the Board, we have maintained fiscal responsibility by operating within our financial means, without introducing any new taxes to our community members. Our dedication to efficiency has allowed us to expand opportunities for through various program and facility enhancements, thanks to collaborations with both public and private partners. These partnerships have been instrumental in our progress, and we are particularly excited about our collaborations with the Public Library of Mahoning County, Southwoods and Akron Children's Hospital, along with higher education partners Stark State and Eastern Gateway Community College. Today, we offer a greater number of College Credit Plus (CCP) opportunities and industry credentials than ever before, demonstrating our commitment to preparing our students for successful futures.

Serving on the Campbell City School Board is about being an essential part of a team with a shared vision—to provide the best possible opportunities for the children in our community. I take immense pride in our collective achievements and express my heartfelt gratitude for the privilege of being a member of this dedicated team. Thank you for entrusting me with the opportunity to serve our community in this capacity.

Sincerely,

Beth Donofrio
