

**September 25,2023**

**Dear Fellow Campbell Citizen,**

**I, John T. Reichert, am asking for your vote for a seat on the Campbell Board of Education this November.**

**I am a native Campbell son, born on January 20<sup>th</sup> 1964.**

**My parents are Dolores and Walter Reichert. My wife is the former Marly Kosinski.**

**While living in Campbell, I attended St. Joseph the Provider Parish and School. Next I earned a B.S. in Biology in 1987 at YSU and D.O. in Medical Sciences in 1994 at DesMoines University.**

**My post graduate work was completed at PHS Mount Sinai Medical Center East & Ohio University in Cleveland.**

**During my time away from home, I worked in family practice in Cleveland. After my mother's death, I returned to Campbell to assist my father in his last years. Next, I transitioned into my first love: education. I taught at Pennsylvania State, Sharon campus; Kent State, Trumbull campus and Youngstown State. Most recently, I was an Anatomy/Physiology I and II professor and lab coordinator. Also, I was part of the committee for a new class in the area of biology of aging. On this committee, I worked on curriculum and material choices for the course.**

**I know my qualifications are multifaceted and cover all portions for the Board of Education member responsibilities. My first priority is the students and all their needs. My experience in identifying and acknowledging needs will help the students. I evaluated and chose new texts for courses and most importantly was interactive with students in their personal and classroom concerns through teaching, mentoring, hands on lab instructions and daily usable knowledge preparing them for life.**

**My lab coordinator position shows my administrative and financial abilities by developing a budget and staying within its constraints, coworkers' interactions, planning labs and material acquisitions.**

**With the Board of Education, there is a need for careful listening, sharing ideas, working together and the establishment of empathy. I will listen to the needs and concerns of everyone involved. We must have our childrens' education as our focused priority and balance that with our accountability toward the taxpayers.**

**What I promise: Students will be my priority with balancing the taxpayers' ability to pay. Open communication. Maintaining and strengthening academics, athletics, trades and technology education. Get the best equipment possible. Strengthen school and community ties.**

**Sincerely,**

**John "Jack" T. Reichert**
